מטלה מס' 1 – פונקציות קלט ופלט

<u>תשובה 1</u>

```c
#include <stdio.h>

int main()

{

        printf("\tMultiplication table\n");

        printf("\t-------------------\n");

        printf("1\t2\t3\t4\t5\n");

        printf("2\t4\t6\t8\t10\n");

        printf("3\t6\t9\t12\t15\n");

        printf("4\t8\t12\t16\t20\n");

        printf("5\t10\t15\t20\t25");

}
```

<u>תשובה 2</u>

```c
#include <stdio.h>

int main()

{

        int age=23;

        float Height=1.87;

        printf("My age is %d\nMY height is %f",age,Height);

}
```

<u>תשובה 3</u>

```c
#include <stdio.h>

int main()

{

        int age;
```

```c
    float Height;
    printf("What is your age : ");
    scanf("%d", &age);
    printf("What is your Height : ");
    scanf("%f", &Height);
    printf("My age is %d\nMY height is %f",age,Height);
}
```
